

e-Table 1: Estimated prevalence and age distribution of diabetes mellitus in developed and developing countries in 1995 and 2000*

Variable	Developed countries			Developing countries		
	1995	2000	% change†	1995	2000	% change†
Prevalence (age \geq 20 yr), %	5.9	6.3	1.07	3.3	4.1	1.24
Age group, no. with diabetes, thousands (%)						
\geq 20 yr	50 974 (100.0)	55 933 (100.0)	1.10	84 313 (100.0)	115 295 (100.0)	1.37
20–44 yr	4 794 (9.4)	4 583 (8.2)	0.96	23 848 (28.3)	28 895 (25.1)	1.21
45–64 yr	17 639 (34.6)	24 223 (43.3)	1.37	41 108 (48.8)	58 881 (51.1)	1.43
\geq 65 yr	28 536 (56.0)	26 820 (48.0)	0.94	19 315 (22.9)	27 051 (23.5)	1.40

*Data for 1995 are from King et al, *Diabetes Care* 1998;21:1414-31; data for 2000 are from Wild et al, *Diabetes Care* 2004;27:1047-53.

†Proportional rise between 1995 and 2000.
