Biostatistical consultant

Date: May 5, 2017

Contact information

Name | Rollin Brant
Affiliations | University of British Columbia, BC Children’s Hospital Research Institute
Biographical details | Dr. Brant completed his PhD at the University of Toronto in 1982 and has held positions at the universities of Minnesota, Toronto and Calgary before joining the Department of Statistics at the University of British Columbia in 2005, concurrent with his appointment as scientist at the BC Children’s Hospital Research Institute.

Dr. Brant has a background in statistics, mathematics and computer science and has had a diverse career over 25 years working in multidisciplinary research in the health sciences. His research activity has been divided between the development and dissemination of statistical methods applicable to the study of human health, and collaborative research in clinical settings, with an emphasis on randomized clinical trials. Dr. Brant’s current projects include improving access to contraception in marginalized women and investigating patterns of abnormal brain development in pre-term infants. Past investigations of note include clinical trials in such areas as invasive monitoring in adult intensive care, the use of corticosteroids in pediatric emergency medicine and the use of chelation therapy in cardiac rehabilitation. He is also known for his widely used web-based power and sample-size calculation calculator.

Declaration of competing interests
