HEMATOLOGIST
Division of Hematology
Dalhousie University/Nova Scotia Health Authority
Halifax, Nova Scotia

The Department of Medicine, Dalhousie University/Nova Scotia Health Authority seeks applications for an academic hematologist at the QEII Health Sciences Centre site. This is a combined Hospital/University position. The Division is seeking an individual with interest and expertise in malignant hematology and hematopoietic stem cell transplantation.

The Division of Hematology is one of 15 divisions in the Department of Medicine, providing compassionate care of patients with hematological disorders whose disease may be benign or malignant. Members are involved in teaching hematology to undergraduate and postgraduate students and to physicians locally, nationally and internationally in continuing education programs. The Division is committed to excellence in clinical care, education, and research. Clinical activities will include attention on the inpatient wards, consultation services and working in clinic. It is expected that the applicants will participate in teaching in the setting of clinical teaching units and ambulatory care and be involved in clinical/basic research in areas that complement those of other members of the Division.

In addition to playing an important clinical role in the Department, division members have excellent opportunities for educational and research endeavors with protected time for scholarly activities to ensure rewarding, fulfilling career development.

A remuneration and benefits package through an alternative funding plan will apply. Nova Scotia offers exceptional cultural and recreational opportunities in addition to a high quality of life.

Academic rank will be dependent upon qualifications & experience. Candidates must have FRCP(C) certification (or equivalent) in Hematology, and be eligible for staff appointment. All qualified candidates are encouraged to apply; however Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The University encourages applications from qualified first nations peoples, persons with disabilities, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

Please send Curriculum Vitae and names and addresses of three referees to:
Dr. Stephen Couban, Head, Division of Hematology
QEII Health Sciences Centre, Room 430, Bethune Building
1276 South Park Street, Halifax, NS B3H 2Y9
Email Stephen.Couban@nshealth.ca
Closing date for applications is October 31, 2017

OFFICE SPACE AVAILABLE

BRAMALEA MEDICAL CENTRE: ON – Brampton. GP suites available for lease; GP practices available; ownership participation available. For further information, please contact: J. Campbell McClure, tel 905 874-0811 or email cmcclure@bellnet.ca
– 2730

COLLEGE MEDICAL CENTRE: ON – Toronto. Three GP suites available for lease (460 sq. ft.; 610 sq. ft.; 540 sq. ft.). Fully serviced building. Competitive rental rates available. For further information, please contact: J. Campbell McClure, tel 905 874-0811 or email cmcclure@bellnet.ca
– 3531

GUELPH: ON – Professional space for lease, 550+ sq. ft. Medical/retail/office space for lease. Located next to the Village by the Arboretum and the University of Guelph, this space is located on a busy route, and ideally situated for optometry, dentistry, and a variety of specialists. This prime location is surrounded by an adult lifestyle community, giving you direct marketing access to potential clients within walking distance. This building is in a great location to serve you and your clients, including PrimeCare Pharmacy, Shift Concussion & Physiotherapy, and LifeLabs. We also offer ample free parking, property management onsite, and wheelchair accessibility with elevator.

Guelph: ON – 566 available. This space has the capacity to accommodate a variety of health and wellness businesses. Bring your ideas and let us help you create a perfect work space for your needs. Please email dinder@afmci.com
– 4108

TORONTO: ON – Medical clinic available for a family physician. Eglington Avenue East/Victoria Park area. 10-person in a bright spacious modern facility. With incentives. Email myrabellbp29@gmail.com, tel 647 405-7338.
– 9678b

POSITIONS VACANT

CARDIOLOGIST: BC – Victoria. Western Cardiology Associates is seeking a FRCP or equivalent cardiologist to join our outpatient practice. Primary duties are consulting cardiology, ECG treadmill testing, Holter interpretation and ambulatory BP monitoring. Hospital practice is optional and affords many other opportunities. The practice is a 10-person in a bright spacious modern facility with convenient access to Victoria’s departments. The newly constructed office building includes a seminar room with full audiovisual equipment. Remuneration to be discussed but will be similar to that which occurs in typical Canadian Cardiology settings. There is an expectation for signature of non-disclosure and non-compete agreements. If you are interested, please contact: Ms. Ildiko Juhasz, email ildiko.juhasz@derm.ca or in clinic, tel 403 457-1900.
– 4101

DERMATOLOGIST OR PHYSICIAN: AB – Dr. Alaneen’s clinic DERM.ca has had considerable growth over the last several years. He is now shifting his clinical focus to the diagnosis, treatment (including surgery and Mohs surgery) and prevention of skin cancer. Currently, his patient roster is over 60,000. Much of the day is spent by him seeing low risk skin cancer patients (Acin. keratoses, minimally atypical nevi, etc.) There is an opportunity for a dermatologist or family physician to assist in managing these patients. It is expected that the applicant see approximately 40 to 50 patients per day, 4 days per week. The hours would be approximately 12:00 – 18:00. The applicant should be comfortable doing skin biopsies. Because this population of patients often has significant actinic damage, there is an expectation for a working knowledge of cosmetic procedures (neuromodulators, fillers, laser, etc.), cosmeceuticals. Any problematic cases can be reviewed with Dr. Alaneen either in real time or via telemedicine. Remuneration to be discussed but will be similar to that which occurs in typical Canadian Dermatology settings.

DERMATOLOGIST: AB – Calgary. Sante Medical, an established medical aesthetics centre in Calgary is looking for an experienced MD injector/dermatologist to join its practice. Must be licensed by the College of Physicians and Surgeons of Alberta, A Fellow of the Royal College of Surgeons of Canada or eligible for fellowship, with experience in dermatology/cosmetic injectables to join our team. Our clinic offers flexible clinic hours, competitive compensation and benefits and tremendous opportunities for growth. Please send email enquiries/resume/CV to careers@santemedical.ca
– 4082

ACADEMIC GENERAL INTERNIST
Department of Medicine, Sunnybrook Health Sciences Centre
University of Toronto

The Division of General Internal Medicine, Sunnybrook Health Sciences Centre and the Department of Medicine, Faculty of Medicine, at the University of Toronto are seeking an Academic General Internist. The successful applicant must be eligible for a full-time clinical academic appointment with an academic position description of either Clinician Teacher or Clinician in Quality and Innovation at the rank of Assistant, Associate or Full Professor at the University of Toronto. It is expected that the position will be approximately 60% clinical and 40% research/teaching/quality improvement. Expected start date is January 3, 2018 or shortly thereafter.

We are seeking a physician who will foster excellence in academic general internal medicine. The successful candidate will participate in the clinical, educational and research activities of the Division of General Internal Medicine at Sunnybrook. Clinical activities will be primarily focused on ward attending on the Clinical Teaching Unit and ambulatory activity in the Rapid Referral GIM Clinic and Ambulatory Internal Medicine Group Practice.

The successful candidate must hold an MD degree, be eligible for certification in Internal Medicine by the Royal College of Physicians and Surgeons of Canada, and have or be eligible for licensure in Ontario. The candidate is expected to have advanced training in education, quality improvement or health administration. Estimated compensation will be in the range of $250,000-$275,000 (fee-for-service estimate) commensurate with academic rank, qualifications and experience. Applicant will also participate in the department’s group medical, dental and life insurance benefit plans. Applications will be accepted until August 31, 2017. The first round of reviews is expected to start in the summer of 2017.

A curriculum vitae and names and addresses of three (3) referees should be sent to:

Dr. Steven Shadowitz, Division Head, GIM
Department of Medicine, Sunnybrook Health Sciences Centre
Room C410, 2075 Bayview Avenue
Toronto, Ontario, Canada M4N 3M5
or by e-mail to: steve.shadowitz@sunnybrook.ca

Sunnybrook Health Sciences Centre is an academic health sciences centre located in Toronto, Ontario. The Department of Medicine is committed to excellence in clinical care, education and research. Department members have excellent opportunities for educational and research endeavors with protected time for scholarly activities to ensure rewarding, fulfilling career development.

For more information about the Department of Medicine at the University of Toronto, please visit our website at www.deptmedicine.utoronto.ca/

For more information about the Department of Medicine at Sunnybrook, please visit our website at http://sunnybrook.ca/content/?page=dept-med-home

The University of Toronto and Sunnybrook Health Sciences Centre are strongly committed to diversity within their communities and especially welcome applications from racialized persons/persons of colour, women, Indigenous/Aboriginal People of North America, persons with disabilities, LGBTQ persons, and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
ACADEMIC FAMILY PHYSICIAN (& ASSISTANT/ASSOCIATE PROFESSOR), 0.6 FTE
Department of Family Medicine
Dalhousie University

The Department of Family Medicine (Halifax site), Dalhousie University and NSHA, invites applications for a part-time academic family physician. Candidates will be appointed as Dalhousie faculty and active staff with the Department of Family Medicine at the Queen Elizabeth II Health Sciences Centre and Central Zone Department of Family Practice, NSHA. This position involves provision of ambulatory, team-based, and comprehensive academic family medicine care including clinical supervision of medical learners. The candidate would build a practice from an existing academic clinic practice and participate in the clinic on call schedule. As well, the successful candidate may be required to provide long-term care with one of our nursing home care teams.

Academic responsibilities will include training and evaluation of family medicine residents and medical students while contributing to the academic development and administration of the university and hospital programs of family medicine. This position offers exciting opportunities for professional development within academic family medicine in a dynamic department with over 400 community-based family physicians in 64 communities in the three Maritime provinces. Over time, as opportunities arise, the candidates’ academic portfolio (teaching, research, administrative responsibilities) could be expanded.

The successful candidate must have CCFP certification and be a current and ongoing member of the College of Family Physicians of Canada. The successful candidate must also be eligible to obtain a full license to practice in Nova Scotia and would have skills and expertise to provide comprehensive family medicine care in settings including community based office and nursing homes. Favourable consideration will be given to those applicants who have Masters level degrees (MSc, MEd, MAEd, MPH, other relevant Masters degrees), Certificates of Added Competencies in areas such as care of the elderly, leadership experience and interest in long-term care.

Academic rank and remuneration will be commensurate with qualifications and experience, with a continuing appointment commencing as early as Fall 2017. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The University encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

The review of applications for this position will commence as soon as the competition closes.

Interested applicants are asked, by September 15, 2017, to 1) submit a current CV and a statement outlining their academic, clinical, and scholarly interests; and 2) arrange to have three confidential letters-of-reference (at least two of these must come from academic referees) forwarded under separate cover to:

Dr. Anna Neumann, Selection Committee Chair
c/o Denise Lavoie, Executive Assistant
Department of Family Medicine, Dalhousie University
8th Floor, 5909 Veterans’ Memorial Lane
Halifax, NS B3H 2E2
Email dftadmin@dal.ca

Faculty Position
Clinician Scientist

Regular Full Time
Vancouver, BC

BCCA, an agency of the Provincial Health Services Authority (PHSA), and the University of British Columbia (UBC) are inviting applications from outstanding hematologists for a new Clinician Scientist faculty position, jointly appointed in the Terry Fox Laboratory (TFL) and the Leukemia/Bone Marrow Transplant Program (L/BMT). The TFL is an academic research department representing an interdisciplinary group with a mix of clinical and basic training expertise and a long track record in hematopoiesis and leukemia, immunology, technology development and genome control mechanisms. The L/BMT program is a FACT accredited stem cell transplantation program that currently transplants approximately 200 patients per year, providing care for autologous and allogeneic transplant recipients (including related, unrelated and cord blood transplants) and for acute leukemia patients in the Province of BC.

The preferred applicant will have expertise in both BMT and hematologic malignancies, a track record of research excellence, and a keen interest in clinical and basic cancer research. With the support of the TFL and L/BMT program, the applicant will be expected to establish a competitive research program (50% protected research time) that makes high quality contributions to hematological malignancies on an international stage, attracts peer reviewed funding and strengthens our excellent training environment.

The successful applicant must have an M.D. or M.D./Ph.D., be eligible for licensure by the BC College of Physicians & Surgeons, and an appropriate academic appointment through UBC. Interested candidates should send: 1) a curriculum vitae; 2) contact information for 3 references; and 3) a 2-3 page statement outlining the applicant’s clinical and research interests, achievements and future goals. Applications should be submitted to Karen Lemmen, Senior Director, Research Administration and Operations, Office of the Vice-President, Research; Email: klemmen@bccancer.bc.ca.

Further information on the TFL and L/BMT programs can be found at:
http://www.phsa.ca/LeukemiaBoneMarrowTransplantProgram

Bluewater Health
Life, health and renewal.
The Department of Surgery, Division of Vascular Surgery at Toronto General Hospital and University of Toronto is inviting applications for the position of a full time staff academic vascular surgeon.

The effective date of this appointment is July 1, 2018.

The Division of Vascular Surgery seeks a full-time academic vascular surgeon to perform the full breadth of vascular surgical procedures and endovascular interventions. The individual is expected to teach students, residents and fellows in didactic and clinical settings. A strong research focus is essential, that will lead to academic advancement. Evidence of excellence in teaching and research is required.

The successful candidate should ideally possess strong leadership skills. The candidate must be eligible for appointment at the rank of Assistant/Associate Professor at the University of Toronto and be eligible for certification with the Royal College of Physicians and Surgeons of Canada in Vascular Surgery or its equivalent, and must be eligible for licensure with the College of Physicians and Surgeons of Ontario.

Located in downtown Toronto, the Toronto General Hospital is part of University Health Network. The Division of Vascular Surgery is a core component of the Peter Munk Cardiac Center and provides comprehensive vascular care for both elective and emergency care for patients in Toronto and the surrounding region. Our practice includes advanced endovascular therapy for aortic aneurysms and peripheral arterial disease, as well as a full complement of open arterial surgery. We provide collaborative multidisciplinary care with our Interventional Radiology, Cardiac Surgery and medical colleagues. The successful candidate must have an area of academic focus to complement clinical activities and will be expected to have expertise in endovascular and open vascular interventions.

The Division of Vascular Surgery has hybrid interventional suites in the operating room, an ICAVL accredited vascular laboratory, clinic and research space. The Division is a principal component site for training of vascular residents at the University of Toronto in the Royal College of Physicians and Surgeons of Canada training program and the Vascular international fellowship program. In addition, the Toronto General Hospital Research Institute has extensive facilities and collaborators for all types of basic and clinical scientific investigations, including a new PET MR human imaging facility.

UHN is an academic institution affiliated with the University of Toronto and is recognized internationally for excellence in patient care, innovation, research and education. The Division of Vascular Surgery is comprised of six full-time clinical faculty members, within multiple UHN Programs, offering clinical care in the areas of Vascular Surgery.

Salary will be commensurate with qualifications and experience.

Interested candidates should submit a letter of interest detailing their clinical and academic interests, the names and addresses of three referees and curriculum vitae by October 15, 2017 by email to Dr. Thomas Lindsay, Chief of Vascular Surgery at UHN, care of Mrs. Amicie Davies at amicie.davies@uhn.ca.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

For more information about the Faculty of Medicine/Department of Surgery, please visit our home page at http://surgery.utoronto.ca.

**Dalhousie University/Nova Scotia Health Authority**

**Halifax, Nova Scotia**

The Department of Medicine, Dalhousie University/Nova Scotia Health Authority seeks applications for a position as an Academic Interventional Cardiologist with the Division of Cardiology, at the QEII Health Sciences Centre, Halifax, Nova Scotia. Candidates must hold FRCP or equivalent certification in Cardiology with additional training in Interventional Cardiology. They must also be eligible to have appropriate licensing for Cardiology with the College of Physicians and Surgeons of Nova Scotia. Preference will be given to applicants with a research track record who will continue to perform investigator-initiated research and to those with advanced skills, for example (but not limited to) complex coronary intervention, treatment of chronic total occlusion, and/or research training.

The Division of Cardiology is one of 15 divisions within the Department of Medicine. In addition to playing an important clinical role in the Department, division members have excellent opportunities for collaborative educational and research endeavors with protected time for scholarly activities to ensure rewarding, fulfilling career development.

An attractive remuneration and benefits package through an alternative funding plan will apply. Nova Scotia offers exceptional cultural and recreational opportunities in addition to a high quality of life.

All qualified candidates are encouraged to apply; however Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The University encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.
