## Acknowledgement permission form

Authors should specify, in the acknowledgements section, contributions to the paper that should be recognized but do not justify authorship, for example critical review of the study proposal or assistance with statistical analysis. The *Canadian Medical Association Journal (CMAJ)* requires that these people give written permission to be acknowledged in the published paper.

File no.:

Title:

Author(s):

I, the undersigned, agree to be identified in the acknowledgements section of the above-named manuscript for my contribution to its preparation.
