

Correction

Correction to “Receipt of adequate prenatal care for privately sponsored versus government-assisted refugees in Ontario, Canada: a population-based cohort study”

CMAJ has been made aware of an error that occurred in the Apr. 3, 2023, issue.¹

In Figure 2, in the “Adequacy of prenatal care by R-GINDEX” subsection, the relative risk value for “government-assisted refugees” read “0.94 (0.8–0.99).” This should have read “0.94 (0.89–0.99).” In addition, the alignment of the values for privately sponsored refugees, government-assisted refugees and their associated relative risks was incorrect.

This has been corrected at cmaj.ca.
