Central diabetes insipidus emerging after steroid replacement in pituitary apoplexy

CMAJ has been made aware of an error that occurred in the May 6, 2019, issue.¹

In the third paragraph, the third sentence read, “She received hypotonic crystalloid solution and 1 dose of intravenous 100 µg desmopressin.” This should have read, “She received hypotonic crystalloid solution and 1 dose of oral 100 µg desmopressin.”

This has been corrected at cmaj.ca.
