

Correction

Correction to “Physician workforce planning and boom–bust economic cycles: a retrospective on the Barer–Stoddart report”

CMAJ has been made aware of an error that occurred in the Jan. 30, 2023, issue.¹

In the last paragraph on the third page of the article, the third sentence read “Governments cut back on funding for residency positions and the Medical Council of Canada placed a quota on funded residency positions for international medical graduates; by 2012, less than 10% of slots were available to these graduates.^{9,10}” This should have read “Governments cut back on funding for residency positions and ultimately, a quota was placed on funded residency positions for international medical graduates; eventually, by 2012, less than 10% of slots were available to these graduates.^{9,10}”

This has been corrected at cmaj.ca.
